NEW PRODUCTS

SARAYA SMART SAN

Smart San Instant Mist Hand Sanitiser is changing the way in which food handling is practised as it is a unique, waterless alcohol based spray that kills germs in seconds. Smart San Instant Mist Hand Sanitiser is an effective way to wash your hands at your workplace or in your home because it is 'Food Grade' approved.

The advantage of being 'Food Grade' approved is that the Instant Mist Hand Sanitiser is ideal for ALL food areas and has a faster effect time than soap. Smart San Instant Mist Hand Sanitiser is safe for hands to have food contact without rinsing, making it excellent in Food Processing and Food Service areas as long as the hands are visibly clean.

Smart San Instant Mist Hand Sanitiser contains a natural vegetable glycerin that will soften and improve skin condition of dry and chapped hands that can be caused from frequent hand washing and harsh soaps.

Sanitisers are a great option for when the use of a sink to wash your hands is not practical as they do not require a rinse or towel dry. Sanitisers are also a fantastic option when on the road or in a hurry. The Smart San advanced liquid formula is atomised when applied to the hands by a Saraya dispenser. Unlike gels, sanitiser sprays will give complete coverage and saturate even the hard-to-get areas of the hands where most germs tend to reside, the nails and the cuticles.
